** per my last **

Dennis – As promised.

Steve – FYSA. These have already been distributed through the Embassy in WSHDC.

Sincerely,
Liam

Subject: RE: Strat Intel Threat Products for FVEY LE Partners 2/2

Due to size restriction, a second email was required.

Please find attached the FPNI IMCIT Special Threat Advisories regarding the latest issues of high concern (i.e.: Canada's 44th General Elections, latest Freedom Convoy developments). These products are also releasable to our FVEY LE partners.

Kind regards,

Pascale Gauthier-Galipeau

Subject: Strat Intel Threat Products for FVEY LE Partners 1/2

Good day Sirs,

Hope you are all doing well.

Please find attached the “Strat Intel Threat Products for FVEY LE Partners”. They are versions of the National threat Landscape (NTL) products and are produced by the Federal Policing National Intelligence (FPNI) Ideologically Motivated Criminal Intelligence Team (IMCIT). They cover the reporting period from June 2021 to present, and provide an overview of the evolving Canadian public order space where ideologically motivated grievances are present. FPNI hope they help provide context for the latest convoy protest developments currently occurring within Canada.

These products are meant to be shared with FVEY partners only, therefore, please distribute those reports to FVEY’s partners in your AORs as you see fit.

The DG mentioned that it is our intent with the JIG to push out products to the on a go-forward basis. Details are TBD but likely twice a week. At the moment, the products can be share with the FVEY partners but we are also going to aim for EU release.

Please encourage all your partners with questions and/or concerns to contact us directly through the International mailbox and not through the JIG or any other units/programs such as FPNS. This will help streamline the process and ensure consistency on the information being shared with partners. I will be the point of contact with the JIG for ISS and will coordinated the international requests for information (RFIs) with the JIG.

****Note:** Christine Briand already shared the products with the FBI and UK.

**** Note:** Latin America - FYSA

Kind regards,

Pascale
